PERRY
STREET
HOTEL

Victorian bones. Modern soul.

Perry Street Hotel is a 13-suite boutique hotel built within the historic 1862 Mechanics Institute — Victorian civic architecture, thoughtfully restored with a distinctly modern, urban edge.

1862

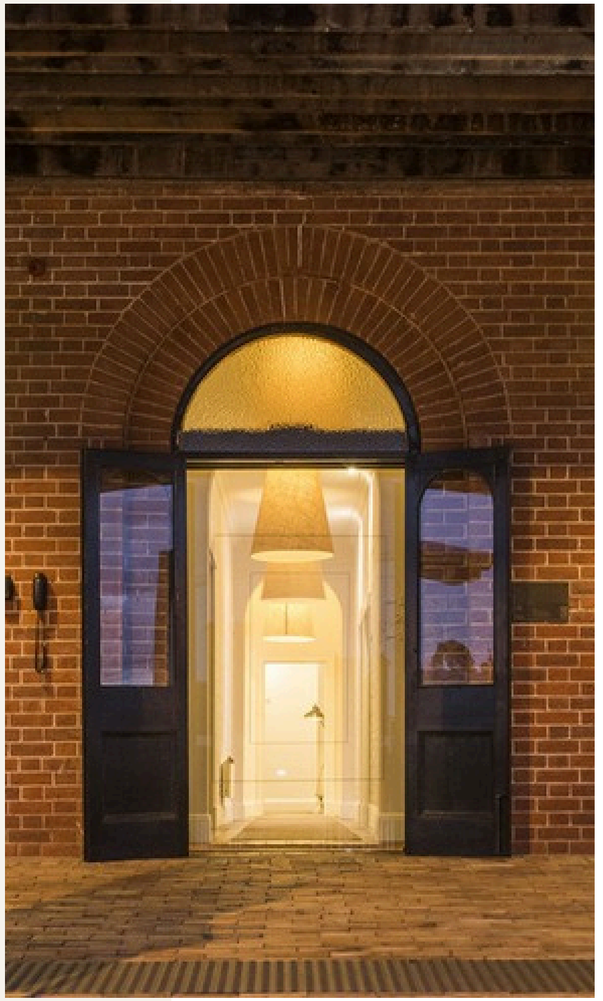

Mechanics Institute, lovingly restored also called a School of Arts — to bring education and a public library to working people. For the next ninety years the hall served as Mudgee's Mechanics' Institute — hosting dances, meetings and performances alongside its library and reading rooms. Poet Henry Lawson is recorded as a regular visitor to the library here.
